OTR[®] 8005ULS Premium Diesel Additive

Provides Better Fuel Economy and Less Engine Maintenance

Application

OTR[®] 8005ULS is an economical, multifunctional, heavy-duty, diesel fuel additive specially formulated to provide injector cleanliness and thermal stability for better fuel economy and less engine maintenance. It is comprised entirely of ashless organic compounds and contains no alcohol. When properly blended, diesel fuel treated with OTR[®] 8005ULS meets the "premium" criteria recommended by EMA, TMC, and NCWM for detergency and thermal stability. OTR[®] 8005ULS is safe for use in heavy-duty, diesel powered equipment for on-road, off-road and marine use.

This product qualifies for the USA EPA 40CFR80.591A certification meaning the product contains <15 ppm (mg/L) sulfur.

This product has been specially formulated for use in today's modern diesel fuels and typical biodiesel blends. Please contact your Afton sales representative for more information.

Key Performance Benefits

- Exceeds detergency and thermal stability criteria for marketing a "premium diesel" as defined by NCWM
- Helps keep injectors clean for more efficient engine operation, reducing the extent of both power and emissions deterioration
- Provides industry standard L-10 detergency
- Increases lubricity, extending the life of critical fuel pump and injector parts
- Increases fuel stability and corrosion control, reducing filter plugging, sludge formation, and fuel system corrosion

Recommended Dosage

Please contact your Afton Chemical representative for specific recommendations.

Typical Characteristics

Appearance	Clear amber to brown liquid
Density, lbs/gal.	7.56
Specific Gravity @ 77°F/25°C	0.908

Handling Information

Max Handling Temp: Please inquire
Shelf Life: 24 months
